Unfortunately, patients who are too ill to work often face legal issues when seeking disability benefits. We endeavor to assist you through this difficult time by providing a number of articles and resources.

The National ME/FM Action Network does not dispense legal advice. The following articles are provided for information purposes only. Please consult your legal adviser.

Our Legal Disability Manual for FMS & ME/CFS is no longer available for purchase. In our desire to assist as many patients as possible, a selection of articles from the manual are included in this section along with more recent articles.

PLEASE VISIT THE PULL-DOWN MENU IN THE LEGAL SECTION ON THE NAVIGATION BAR ABOVE TO EXPLORE MORE.
